

# Student Immunization Form

Student Name \_\_\_\_\_ Student Number \_\_\_\_\_

Minnesota law requires children enrolled in school to be immunized against certain diseases or file a legal medical or conscientious exemption.

**MINNESOTA LAW ENFORCEMENT ONLY**

Complete booster required in process, 8 mos. expires \_\_\_\_\_

Medical exemption for \_\_\_\_\_

Conscientious objection for \_\_\_\_\_

Parent/guardian consent \_\_\_\_\_

**Parent/Guardian:** You may attach a copy of the child's immunization history to this form OR enter the MONTH, DAY, and YEAR for all vaccines your child received. Enter MED to indicate vaccines that are medically contraindicated including a history of disease, or laboratory evidence of immunity and CD for vaccines that are contrary to parent or guardian's conscientiously held beliefs. Sign or obtain appropriate signatures on reverse. Complete section 1A or 1B to certify immunization status and section 2A to document medical exemptions (including a history of varicella disease) and 2B to document a conscientious exemption. Additionally, if a parent or guardian would like to give permission to the school to share their child's immunization record with Minnesota's Immunization Information System, they may sign section 3 (optional). For updated copies of your child's vaccination history, talk to your doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-5503 or 800-557-3972.

**School Personnel:** Be sure to initial and date any new information that you add to this form after the parent/guardian submits it. Also, record combination vaccines (e.g., DTaP+Hib+IPV, Hib+Tdap) in each applicable space.

| Required (The standard doses indicate doses that are routinely given; however, if your child has received their injection while older than the shaded box) | CD (Not Used) | Med (Used) | IPV (Used) | DTaP (Used) | DT (Used) | DTaP/DT (Used) | DTaP/DT (Used) |
|--|---------------|------------|------------|-------------|-----------|----------------|----------------|
| Diphtheria, Tetanus, and Pertussis (DTaP, DT, DT)  |               |            |            |             |           |                |                |
| • final dose on or after age 4 years   |               |            |            |             |           |                |                |
| Tetanus and Diphtheria (Td)  |               |            |            |             |           |                |                |
| • for children age 7 years and older   |               |            |            |             |           |                |                |
| • 3 doses of Td required for children not up to date with DTaP, DT, or DT series above   |               |            |            |             |           |                |                |
| Tetanus, Diphtheria and Pertussis (Tdap)   |               |            |            |             |           |                |                |
| • for children in 7th - 12th grade   |               |            |            |             |           |                |                |
| Polio (IPV, OPV)   |               |            |            |             |           |                |                |
| • final dose on or after age 4 years   |               |            |            |             |           |                |                |
| Mumps, Measles, and Rubella (MMR)  |               |            |            |             |           |                |                |
| • minimum age on or after 1st birthday   |               |            |            |             |           |                |                |
| Hepatitis B (Hep B)  |               |            |            |             |           |                |                |
| Varicella (chickenpox)   |               |            |            |             |           |                |                |
| • minimum age on or after 1st birthday   |               |            |            |             |           |                |                |
| • vaccine or disease history required  |               |            |            |             |           |                |                |
| Meningococcal (MNCV, MPSV)   |               |            |            |             |           |                |                |
| • for children in 7th - 12th grade   |               |            |            |             |           |                |                |
| • booster given age 16 years   |               |            |            |             |           |                |                |
| <b>Recommended:</b>  |               |            |            |             |           |                |                |
| Human Papillomavirus (HPV)   |               |            |            |             |           |                |                |
| Hepatitis A (Hep A)  |               |            |            |             |           |                |                |
| influenza (annually for children 6 months and older)   |               |            |            |             |           |                |                |

**Additional exemptions:**

- Children 7 years of age and older: A history of 3 doses of DTaP/DT/DTaP or Tdap and 3 doses of polio vaccine meets the minimum requirements of the law.
- Students in grades 7-12: A Tdap at age 11 years or later is required for students in grades 7-12. If a child received Tdap at age 7-10 years another dose is not needed at age 11-12 years. However, if it was only a Td, a Tdap dose at age 11-12 years is required.
- Students 11-15 years of age: A 3rd dose of hepatitis B vaccine is not required for students who provide documentation of the alternative 2-dose schedule.
- Students 18 years of age or older: Do not need polio vaccine.

Student Name \_\_\_\_\_

**Instructions, please complete:**  
 Box 1 to be on exemption (medical or religious) or complete A or B to indicate child's immunization status.  
 Box 2 to be on exemption (medical or religious) or complete A or B to indicate child's immunization status.  
 Box 3 to be on exemption (medical or religious) or complete A or B to indicate child's immunization status.

**1. Certify Immunization Status.** Complete A or B to indicate child's immunization status.

**A. Received all required immunizations:**  
 I certify that this student has received all immunizations required by law.

**B. Will complete required immunizations within the next 6 months:**  
 I certify that this student has received at least one dose of vaccine for diphtheria, tetanus, and pertussis (if age-appropriate), polio, hepatitis B, varicella, measles, mumps, and rubella and will complete his/her diphtheria, tetanus, pertussis, hepatitis B, and/or polio vaccine series within the next 6 months.  
 The dates on which the remaining doses are to be given are:  
 \_\_\_\_\_  
 \_\_\_\_\_

Signature of Parent / Guardian OR Physician / Public Clinic \_\_\_\_\_  
 Date \_\_\_\_\_

Signature of Physician / Public Clinic \_\_\_\_\_  
 Date \_\_\_\_\_

**2. Exemptions to School Immunization Law.** Complete A and/or B to indicate type of exemption.

**A. Medical exemption:**  
 No student is required to receive an immunization if they have a medical contraindication, history of disease, or laboratory evidence of immunity. For a student to receive a medical exemption, a physician, nurse practitioner, or physician assistant must sign this statement:  
 I certify the immunization(s) listed below are contraindicated for medical reasons, laboratory evidence of immunity, or that adequate immunity exists due to a history of disease that was laboratory confirmed (for varicella disease see \* below). List exempted immunization(s):  
 \_\_\_\_\_  
 Date \_\_\_\_\_

**B. Conscientious exemption:**  
 No student is required to have an immunization that is contrary to the conscientiously held beliefs of his/her parent or guardian. However, not following vaccine recommendations may endanger the health or life of the student or others they come in contact with. In a disease outbreak schools may exclude children who are not vaccinated in order to protect them and others. To receive an exemption to vaccination, a parent or legal guardian must complete and sign the following statement and have it notarized:  
 I certify by notarization that it is contrary to my conscientiously held beliefs for my child to receive the following vaccine(s):  
 \_\_\_\_\_  
 \_\_\_\_\_  
 day of \_\_\_\_\_, 20\_\_\_\_  
 Signature of parent or legal guardian \_\_\_\_\_  
 Date \_\_\_\_\_

**3. Parental/Guardian Consent to Share Immunization Information (optional):**  
 Your child's school is asking your permission to share your child's immunization documentation with MIIC. Minnesota's Immunization Information System, to help better protect students from disease and allow easier access for you to receive your child's immunization record. You are not required to sign this consent. It is voluntary. In addition, all the information you provide is legally classified as private data and can only be released to those legally authorized to receive it under Minnesota law.  
 I agree to allow school personnel to share my student's immunization documentation with Minnesota's Immunization Information System.
